Subject: Testimony in support of HB-7218, HB-7223, HB-7219 and SB-60.

I support HB-7218, HB-7223, HB-7219 and SB-60.

Safe gun storage simply makes sense. There are plenty of lightweight, affordable, easily-unlocked-in-an-emergency pistol storage boxes available that would save all the accidental toddler / child shooting deaths each year if every gun owner living with a child under 16 owned and used one.

I object to being allowed to store a gun in a car, but if it is going to be allowed, it should at least have to be locked. The statistics on the number of guns stolen from vehicles is staggering.

Untraceable guns like ghost guns and 3D printed guns are most valuable to criminals, I would think. Those are the people who should not own guns.
